

COURSE PROJECT ASSESSMENT FORM (30 HOURS - INDIVIDUAL REPORT)						Student Name: Lekeno Teboho Student Number: 110992	Overall Mark: 55
	Unacceptable	Poor	Acceptable	Good	Excellent	Brief description of outcome	Justification for outcome rating if NOT rated <i>Acceptable</i>
Background & Problem Understanding		X				Identification of requirements, assumptions, success criteria and constraints. Contextualisation with respect to relevant literature and existing solutions.	<i>Poor literature review and extremely short introduction section.</i>
Quality of Engineering Output				X		Quality of output achieved (functionality, maintainability, reliability). Evidence of insight, originality or attention to detail. Application of appropriate engineering methodology to arrive at output.	<i>Good design procedure although left out some important aspects of the bushing such as corona and e-field in the bushing region on interface with the climate chamber.</i>
Critical Analysis & Evaluation			X			Validation and critique of final output. Discussion of tradeoffs. Recommendations for future work and possible improvements.	
Technical Communication			X			Quality as a professional & technical document: target audience; logical structure; style, language and tone; support material (graphical/tabular/math); Format; citation & referencing.	<i>Acceptable report writing skills.</i>

Rating	General Interpretation
Unacceptable	No evidence provided; invalid/irrelevant approach, method, execution; completely flawed.
Poor	One or more major flaws, otherwise complete; one or more components very poor.
Acceptable	No more than minor flaws, otherwise complete; no distinguishing features.
Good	Shows insight; some distinguishing feature(s).
Excellent	Exceptional insight and multiple distinguishing features.
<i>All outcomes are weighted equally.</i>	

Late Submission <i>(Penalty on Final Mark)</i>	Submitted deliverables late? Within 1 Hour: -5% Before 16h30: -15% Penalty: 0 <i>See School policy on late submissions.</i>
Mark Adjustment <i>(Examiners Discretion)</i> ±2%	

Examiner's Overall Comments:	<i>A marginally acceptable report</i>	Date: 6/05/2019 Signature:
